Subject: Re: LBT coordination

Hi Dore.

Thank you for the update and your contributions on this issue.

Our collective efforts to comprehensively engage EPA HQ and the Region on this issue have been highly successful.

Through this effort, we are ensuring the applicants have a thorough understanding of the process and information needed in order for the federal and territory regulatory community to assess the project.

Please keep me posted on further communications.

Sincerely,
Pete

FYI. I spoke with Robert Tomiak today about the applicability determination process that DECA and ORC is handling with OECA regarding Limetree. When we chatted he offered his assistance in communicating our information needs to the facility. I will be sending him specifics on the outstanding items on Monday. Thank you.

That is perfect, thanks. I'll send a clarifying note out shortly since we may have created some confusion based on my faulty assumptions during yesterday's team meeting.

I realize that Flaire is "lead" for the project and she's been fantastic to work with.....but please feel free to reach out directly if you need my help or support on anything.

Rob

Robert- I confirmed that it is members of Phil Brooks staff that we have been working with in OECA. There was a briefing scheduled for him yesterday that was postponed. Gregg Freid has been our poc. There have been some discussions with OAR and OAQPS in coordination with OECA. I need to let you know on Monday if we are waiting for information from the company that you can help facilitate. Ok?

Dore,

My contact info is below. Our next meeting with LBT is next Wednesday at 1pm; happy to reinforce your messaging as appropriate.....particularly if your team has requested and needs additional information.

Thanks, Rob
